1.1 GENERAL MAPS

The list of the main maps of the Nominated Property:

- 001 – Map showing the location of the Property proposed in the State Party
- 002 – General map of the Nominated Property and its Buffer Zone
- 003 – General map of the Nominated Property in the context of areas subject to special protection regimes under the heritage management and nature conservation
- 004 – Map of the boundary of the Nominated Property showing the plots of land – general overview of the sequence of the detailed maps
 - 004.01 – Map of the Nominated Property boundary with the plots of land, Map Sheet 1
 - 004.02 – Map of the Nominated Property boundary with the plots of land, Map Sheet 2
 - 004.03 – Map of the Nominated Property boundary with the plots of land, Map Sheet 3
 - 004.04 – Map of the Nominated Property boundary with the plots of land, Map Sheet 4

1.2 SPECIFIC PLANS, MAPS AND SCHEMATIC PLANS OF THE NOMINATED PROPERTY

List of specific plans, maps and schematic plans of the Nominated Property:

005 – Schematic maps of functional and landscape compositions of the Nominated Property:

- 005.01 – Schematic map of the functional use of the Nominated Property divided into forests, woodland, pastures, grassland and arable land
- 005.02 – Schematic map of tree vegetation at the Nominated Property
- 005.03 – Schematic map of the road network including driveways and lanes in the landscape of the Nominated Property
- 005.04 – Schematic map of the water bodies and watercourses composition at the Nominated Property
- 005.05 – Schematic map of the avenues, alleys and lines of trees at the Nominated Property and their hierarchy in the landscape composition
- 005.06 – Schematic plan of the composition axes of the Nominated Property

006 – Schematic maps of the Nominated Property in the history and different style periods contributing to its multilayer composition:

- 006.01 – Map documenting the relationship between the current area of the Nominated Property and its area in 1771
- 006.02 – Schematic map of late Baroque landscape before 1830; afterwards the Nominated Property was modified in the Classicist style
- 006.03 – Schematic map of the Classicist landscape of the Nominated Property influenced by the Age of Enlightenment after 1830
- 006.04 – Present state of the Landscape for Breeding of Carriage Horses at Kladruby nad Labem
- 006.05 – Schematic outline of the historic and style layers of the Nominated Property

007 – Schematic maps of the Nominated Property historic development in each period:

- 007.01 – Schematic map of the Nominated Property from 1764 to 1767 based on the First Military Mapping
- 007.02 – Schematic map of the Nominated Property in 1835
- 007.03 – Schematic map of the Nominated Property from 1852 to 1853 based on the Second Military Mapping
- 007.04 – Schematic map of the Nominated Property in 1920
- 007.05 – Schematic map of the Nominated Property in 2017

1.3 HISTORICAL MAPS AND PLANS OF THE NOMINATED PROPERTY

Contents

List of historic maps and plans of the Nominated Property:	74
1 Oldest maps of the Nominated Property	77

HISTORICAL MAPS AND PLANS OF THE NOMINATED PROPERTY

Annex 1 – Maps, plans and schemes
of the Nominated Property

CZECH REPUBLIC
2018

Contents

- List of historic maps and plans of the Nominated Property: 74
- 1 Oldest maps of the Nominated property 77
- 2 Maps and plans from the 18th century 81
- 3 Maps and plans from the 19th century 85
- 4 Maps and plans from the 20th century 97

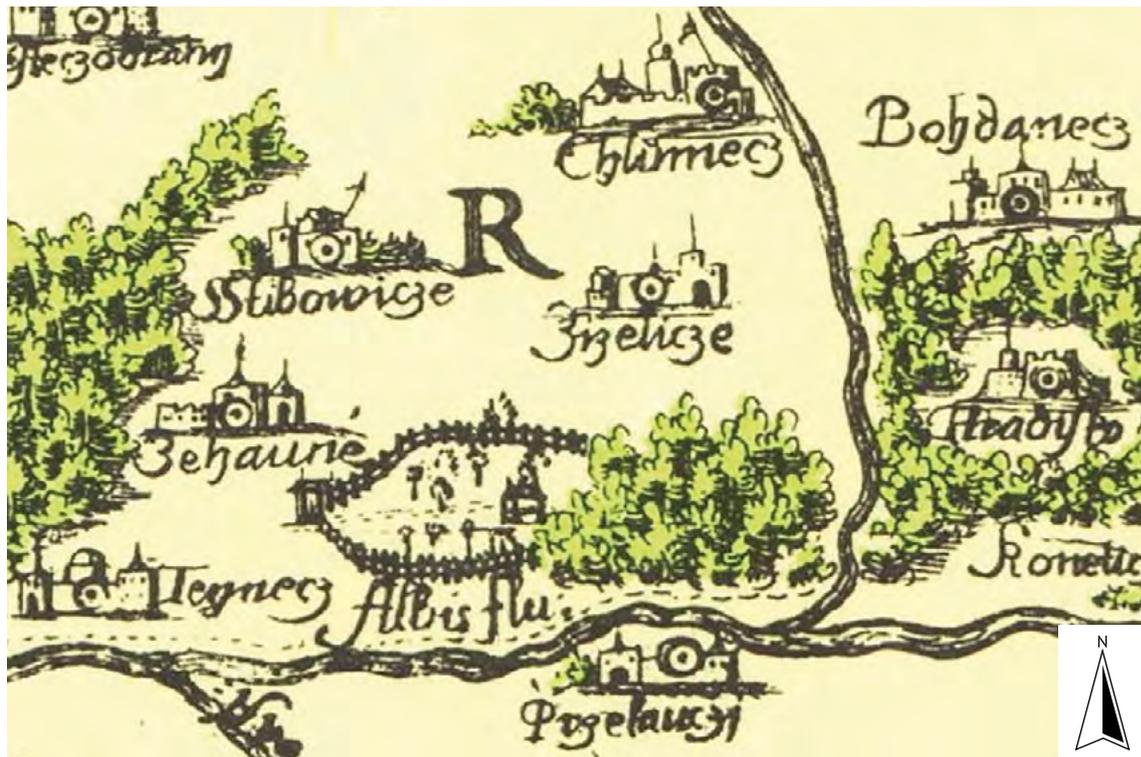

List of historic maps and plans of the Nominated Property:

- 001 Section of Arentin's map of Bohemia *New and exact description of the Bohemian Kingdom (Nový a přesný popis Království českého – Regni Bohemiae nova et exacta descriptio)* published in 1619 by Pave lArentin of Ehrenfeld. The section provides a schematic rendering of Kladruby Deer Park. Central Archives of Land Surveying and Registry.
- 002 Pardubice Estate map by Georg Matthäus Vischer from 1688 rendering besides others the Imperial Court Stud Farm at Klaruby nad Labem with gardens and landscape. Maps Collection, Charles University, Faculty of Natural Sciences.
- 003 Section of the Pardubice Estate map by Georg Matthäus Vischer from 1688 is the oldest known rendering of the Kladruby nad Labem farmstead. The veduta renders the Imperial Manor House with the church surrounded by gardens, the courtyard with stables, residential buildings and the cultural landscape. Maps Collection, Charles University, Faculty of Natural Sciences.
- 004 Section of Pardubice Estate map by Georg Matthäus Vischer from 1688 schematically rendering the landscape situation of the Stud Farm (Gestütgarten) between Semín and Selmice villages. Maps Collection, Charles University, Faculty of Natural Sciences.
- 005 Section of Jan Kryštof Müller's map of Bohemia from 1720. The section renders the Kladruby Stud Farm (Gestüdhof) and the pastures near Selmice. Maps Collection, the Institute of History of the Czech Academy of Sciences.
- 006 Map of the Kladruby nad Labem farmstead from the 1730s rendering the farmstead after its reconstruction in High Baroque style was completed. Prague Castle Archive.
- 007 Section of a map from the first military mapping (1764–1768) rendering the landscape between Kladruby nad Labem and Selmice villages with the farmsteads. Österreichisches Staatsarchiv.
- 008 Set of maps by Antonín Felix Zástěra from 1771–1777 rendering in detail the landscape situation in the 2nd half of 18th century covering an area identical with the Nominated Property. Regional branch of the State Archive, Zámorsk.
- 009 Section of a map from the set of maps by Antonín Felix Zástěra from 1771–1777 rendering in detail the situation of the Selmice farmstead in the 2nd half of 18th century. Regional branch of the State archive, Zámorsk.
- 010 Section of a map from the set of maps by Antonín Felix Zástěra from 1771–1777 rendering in detail the situation of Kladruby nad Labem farmstead in the 2nd half of 18th century. Regional branch of the State Archive, Zámorsk.
- 011 Plan of the Kladruby nad Labem farmstead from 1772. It is the only evidence of the appearance of the farmstead with the buildings (Imperial Manor house, church, stables and residential buildings) restored after the catastrophic fire. National Archive.
- 012 Section of a layout plan of the Kladruby nad Labem farmstead from approximately 1829. National Archive.
- 013 Stud Farm plan by Louis Montoyer from 1830. The plan drawn at the time of the Classicist reconstruction of the Kladruby nad Labem farmstead and construction of the Františkov farmstead renders clearly the basic concept of the landscape arrangement. National Archive.

- 014 Plan of the stables front face in Kladruby nad Labem by Mauritz Jahn from 1823. An example from the extensive set of archive documents illustrating the Classicist reconstruction of the farmstead. National Archive.
- 015 Ground plan of the Kladruby nad Labem stables by Louis Montoyer from 1830. An example from the extensive set of archive documents illustrating the Classicist reconstruction of the farmstead. National Archive.
- 016 Louis Montoyer's design of the main stables' facades at the Kladruby nad Labem farmstead from 1830. An example from the extensive set of archive documents illustrating the Classicist reconstruction and completion of the farmstead. National Archive.
- 017 Mauritz Jahn's plan of the Františkov farmstead construction from 1828. Floor plan of the granary, trusses above the stables, cross-sections of the buildings and the front facade. An example from the extensive set of archive documents illustrating the Classicist reconstruction of the farmstead. National Archive.
- 018 Stud Farm map rendering the landscape arrangement in the neighbourhood of the Kladruby nad Labem and Františkov farmsteads by Mauritz Jahn from 1835. National Archive.
- 019 Section of the above map by Mauritz Jahn from 1835. Perspective view of the Františkov farmstead from the north-west. National Archive.
- 020 Section of a map from the second military mapping (1835–1852) rendering the landscape between the Kladruby nad Labem and Františkov farmsteads and their immediate surroundings. Österreichisches Staatsarchiv.
- 021 Stable Cadastre map (*Franziseischer Kataster*) – copy of the Stable Cadastre indicative sketches of Kladruby Imperial Stud Farm from 1839. The map renders the landscape composition with the individual farmsteads. Regional branch of the State Archive, Zámorsk.
- 022 Section of the Stable Cadastre indicative sketch of the Kladruby Imperial Stud Farm from 1839. The section renders the situation of buildings in the Kladruby nad Labem farmstead and in the immediate neighbourhood. Regional branch of the State Archive, Zámorsk.
- 023 Section of the Stable Cadastre indicative sketch of Kladruby Imperial Stud Farm from 1839. The section depicts the situation of the Františkov farmstead buildings and immediate neighbourhood. Regional branch of the State Archive, Zámorsk.
- 024 Wenzl Herran's map of plots of the Kladruby, Františkov and Josefov farmsteads constituting the Imperial Court Stud Farm in Kladruby nad Labem from 1855. National Archive.
- 025 Map of plots, farmsteads and forests of the Court Stud Farm at Kladruby nad Labem from 1856. National Archive.
- 026 Section of a map from the third military mapping (1869–1885) rendering the landscape arrangement, all three farmsteads with stables (Kladruby nad Labem, Františkov and Josefov), including pheasantry located in today's Landscaped park of Mošnice in the southern section of the farmstead. Collection of Maps, Charles University, Faculty of Natural Sciences.
- 027 Plan of water management system (irrigation and drainage canals of Kladrubský náhon in the Stud Farm landscape) by Boleslav Trojan from 1876. National Archive.
- 028 Plan of the irrigation system of the Kladruby nad Labem meadows and pastures by Boleslav Trojan from 1875. District branch of State Archive, Pardubice.
- 029 Site plan of the Kladruby nad Labem and Josefov farmsteads by Vladimír Hofbauer from approximately 1880. National Archive.

- 030 Site plan of the Františkov farmstead by Vladimír Hofbauer from approximately 1880. National Archive.
- 031 Site plan of Kladruby nad Labem farmstead from 1900. National Archive.
- 032 Site plan of Františkov farmstead from 1900. National Archive.
- 033 Site plan of Kladruby nad Labem farmstead from 1900. National Archive.
- 034 Design of landscape modifications from 1893 drafted by Vladimír Hofbauer, the brother of Frantz Hofbauer, the stud farm manager. The proposed “English garden look” of the landscape was adopted only in the form of clumps in the pastures. In the same period the work on the Mošnice Landscaped Park started under the supervision of Anton Umlauf, the Court Director from Hofburg and a member of the Royal Dendrological Society. Regional branch of the State Archive, Zámorsk.
- 035 Project for canalisation of the Elbe south of Kladruby nad Labem from 1910. Regional branch of the State Archive, Zámorsk.
- 036 Project of the road to the new bridge across the Elbe bypassing Kladruby nad Labem farmstead from 1923. Regional branch of the State Archive, Zámorsk.

1 The oldest maps of the Nominated Property

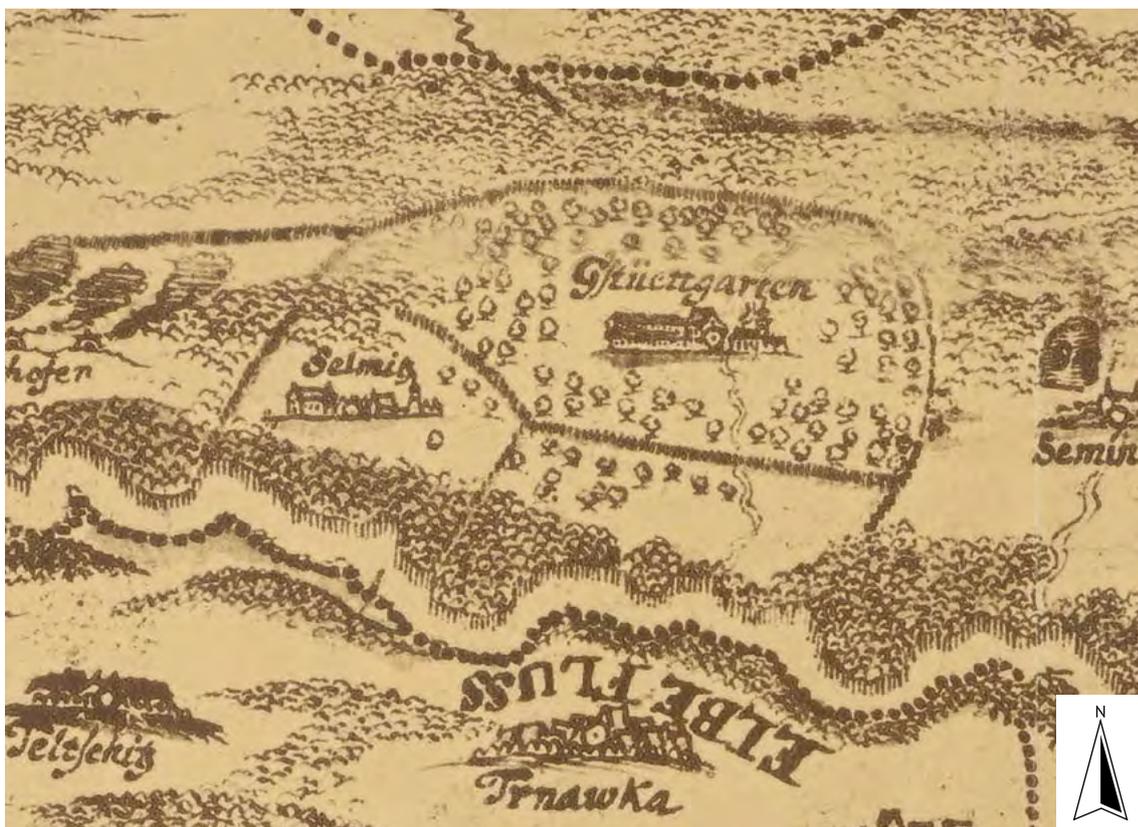

- 001 Section of Arentin's map of Bohemia *New and exact description of the Bohemian Kingdom* (*Nový a přesný popis Království českého – Regni Bohemiae nova et exacta descriptio*) published in 1619 by Pave Arentin of Ehrenfeld. The section provides a schematic rendering of Kladruby Deer Park. Central Archives of Land Surveying and Registry.

002 Pardubice Estate map by Georg Matthäus Vischer from 1688 rendering besides others the Imperial Court Stud Farm at Klaruby nad Labem with gardens and landscape. Maps Collection, Charles University, Faculty of Natural Sciences.

003 Section of the Pardubice Estate map by Georg Matthäus Vischer from 1688 is the oldest known rendering of the Kladruby nad Labem farmstead. The veduta renders the Imperial Manor House with the church surrounded by gardens, the courtyard with stables, residential buildings and the cultural landscape. 005 Section of Jan Kryštof Müller's map of Bohemia from 1720. The section renders the Kladruby Stud Farm (Gestüdhof) and the pastures near Selmice. Maps Collection, the Institute of History of the Czech Academy of Sciences.

2. Maps and plans from the 18th century

006 Map of the Kladruby nad Labem farmstead from the 1730s rendering the farmstead after its reconstruction in High Baroque style was completed. Prague Castle Archive.

007 Section of a map from the first military mapping (1764–1768) rendering the landscape between Kladruby nad Labem and Selmice villages with the farmsteads. Österreichisches Staatsarchiv.

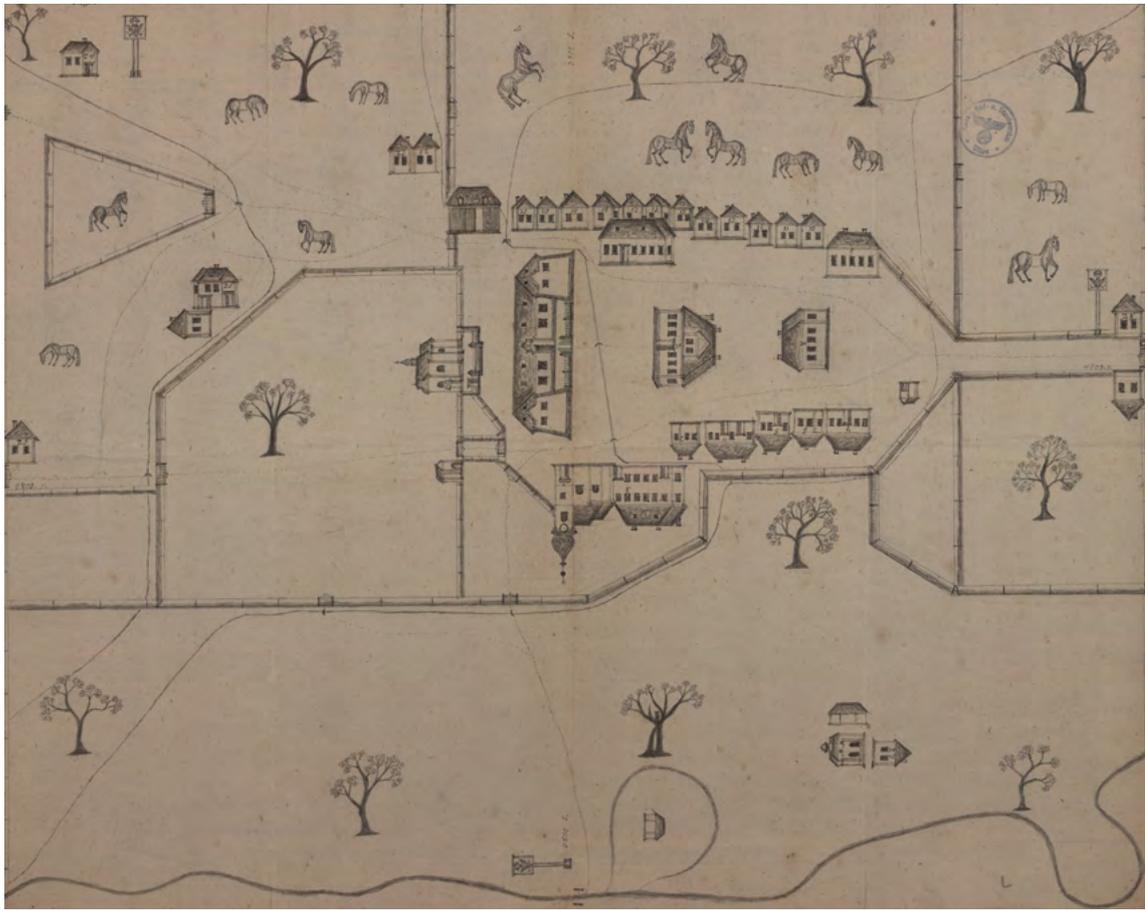

008 Set of maps by Antonín Felix Zástěra from 1771–1777 rendering in detail the landscape situation in the 2nd half of 18th century covering an area identical with the Nominated Property. Regional branch of the State Archive, Zámorsk.

009 Section of a map from the set of maps by Antonín Felix Zástěra from 1771–1777 rendering in detail the situation of the Selmice farmstead in the 2nd half of 18th century. Regional branch of the State archive, Zámorsk.

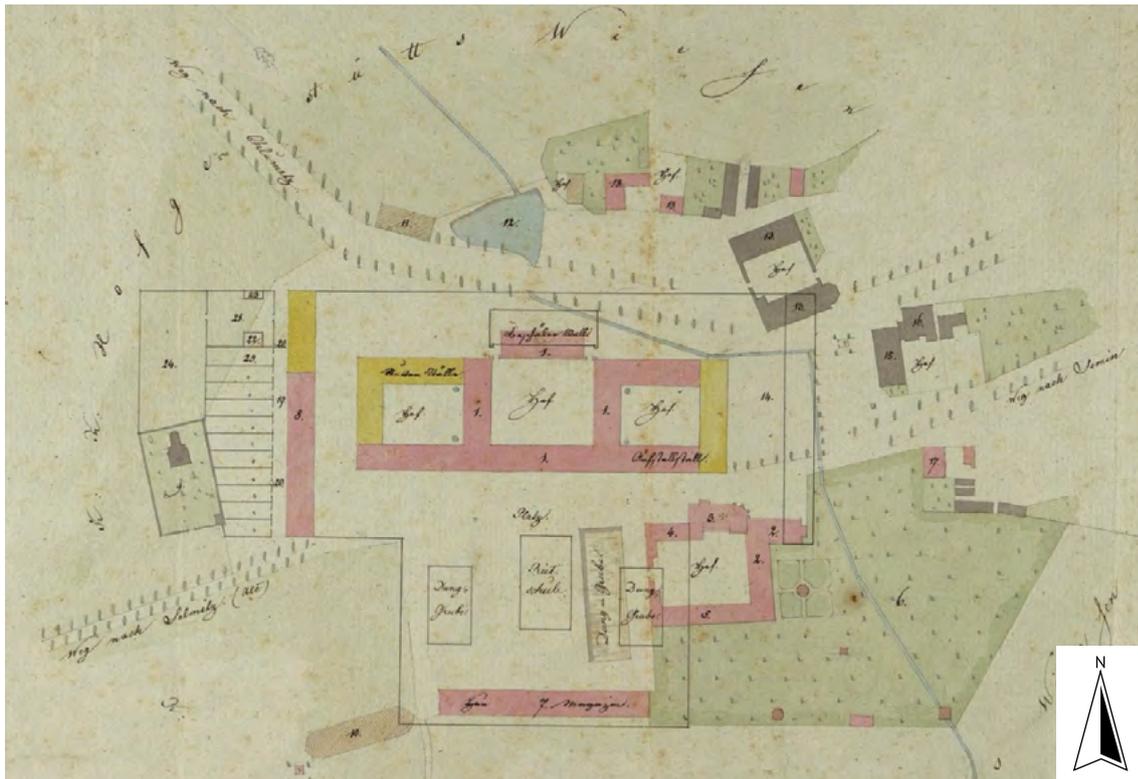

010 Section of a map from the set of maps by Antonín Felix Zástěra from 1771–1777 rendering in detail the situation of Kladruby nad Labem farmstead in the 2nd half of 18th century. Regional branch of the State Archive, Zámorsk.

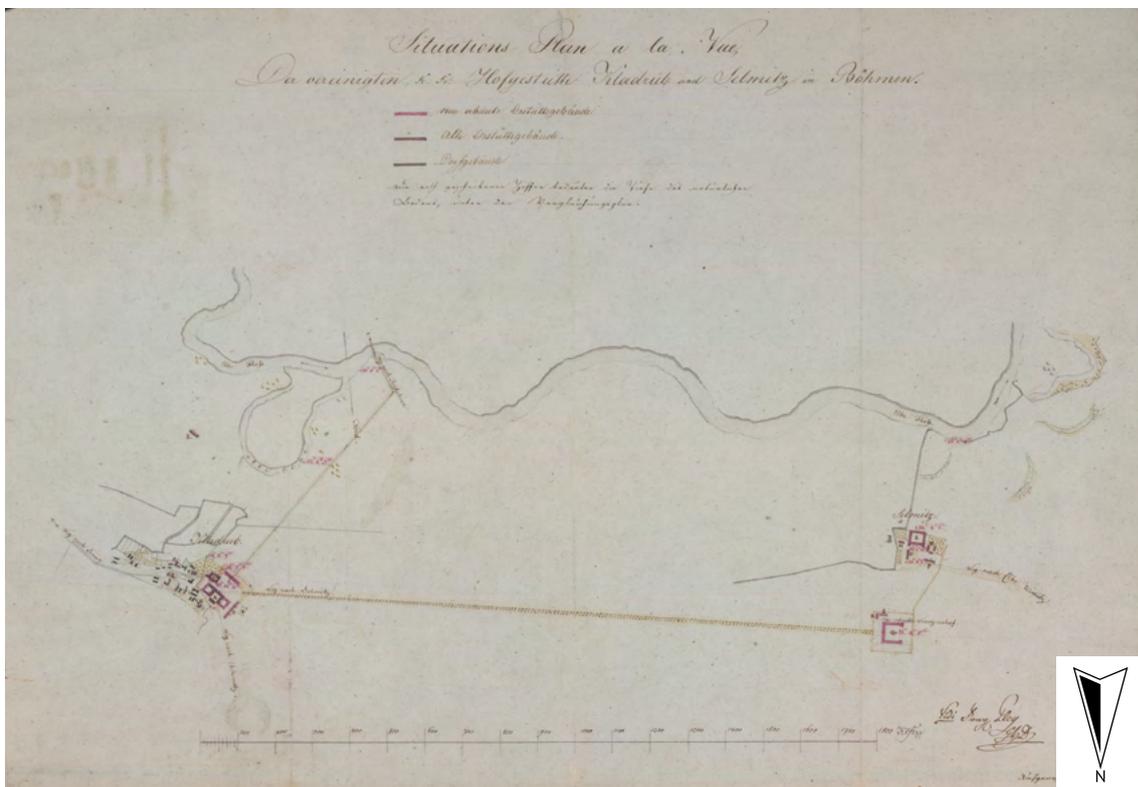

011 Plan of the Kladruby nad Labem farmstead from 1772. It is the only evidence of the appearance of the farmstead with the buildings (Imperial Manor house, church, stables and residential buildings) restored after the catastrophic fire. National Archive.

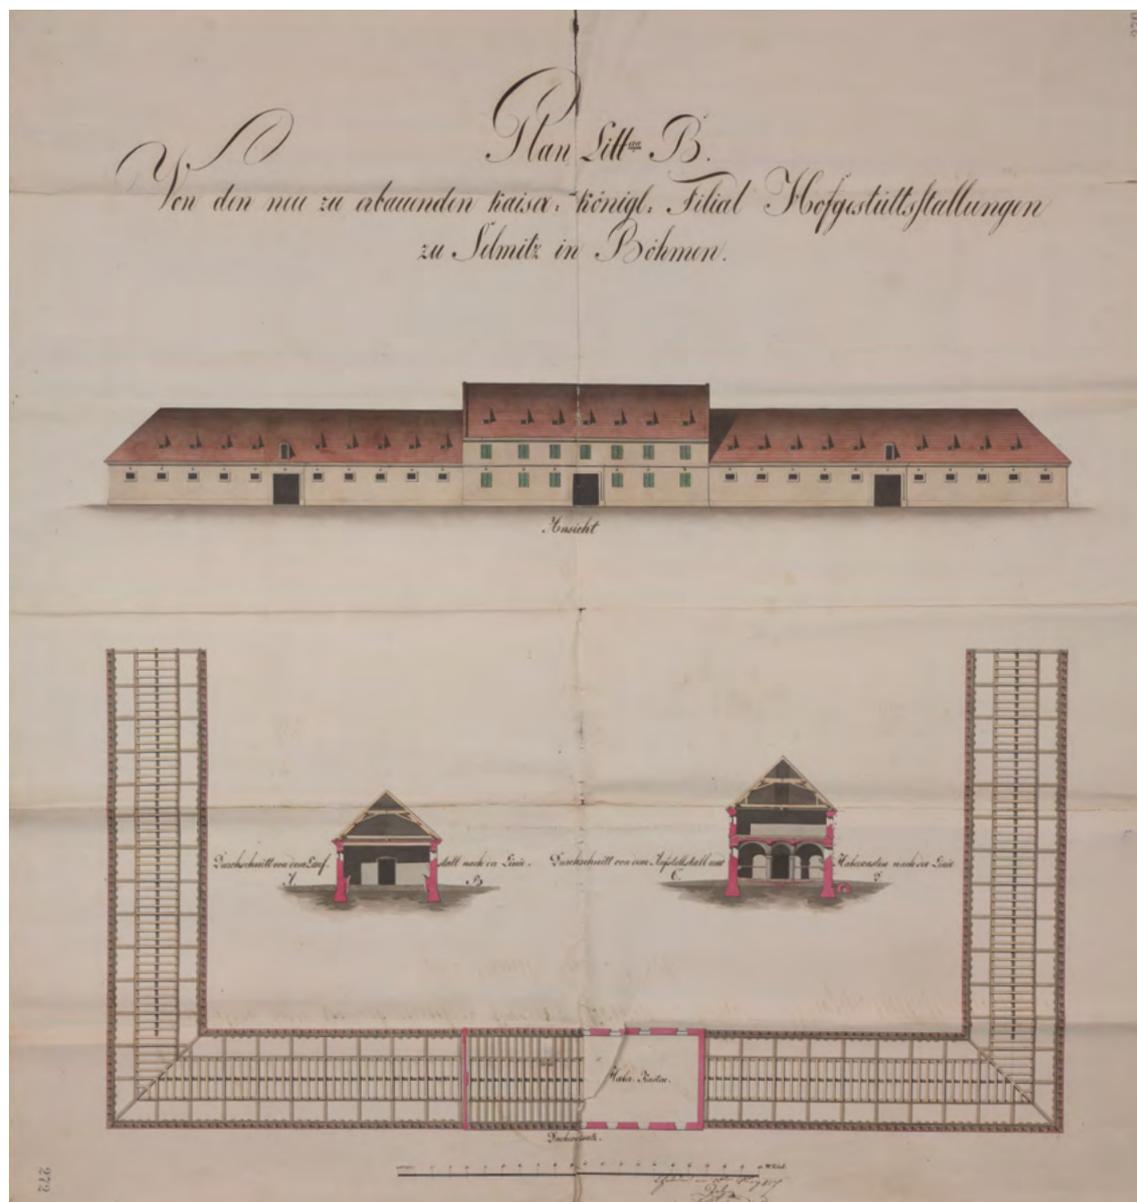

3 Maps and plans from the 19th century

012 Section of a layout plan of the Kladruby nad Labem farmstead from approximately 1829. National Archive.

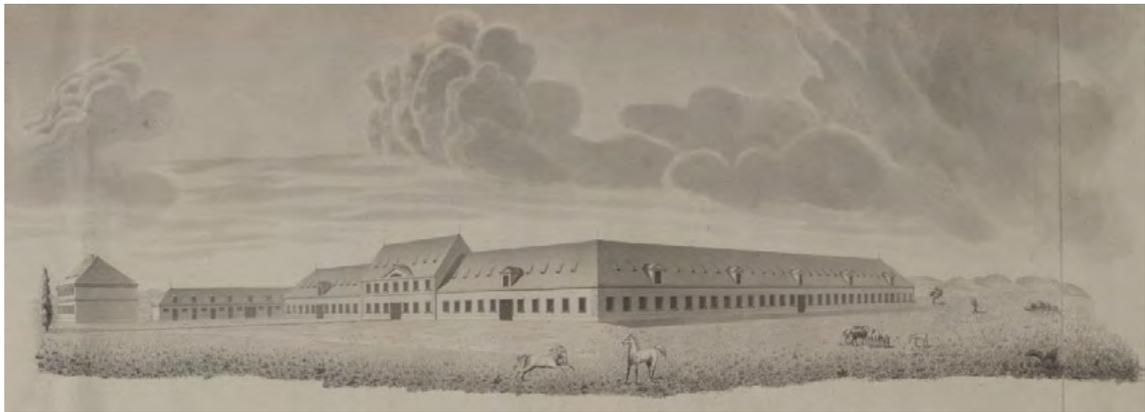

013 Stud Farm plan by Louis Montoyer from 1830. The plan drawn at the time of the Classicist reconstruction of the Kladruby nad Labem farmstead and construction of the Františkov farmstead renders clearly the basic concept of the landscape arrangement. National Archive.

017 Mauritz Jahn's plan of the Františkov farmstead construction from 1828. Floor plan of the granary, trusses above the stables, cross-sections of the buildings and the front facade. An example from the extensive set of archive documents illustrating the Classicist reconstruction of the farmstead. National Archive.

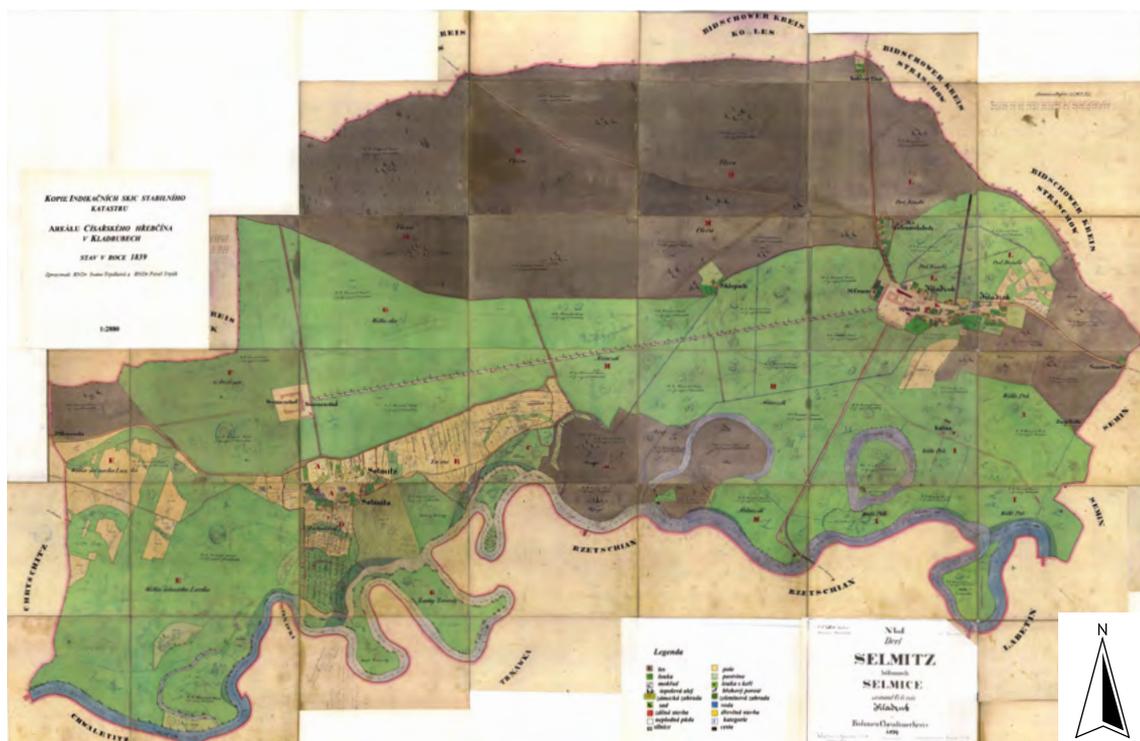

018 Stud Farm map rendering the landscape arrangement in the neighbourhood of the Kladruby nad Labem and Františkov farmsteads by Mauritz Jahn from 1835. National Archive.

019 Section of the above map by Mauritz Jahn from 1835. Perspective view of the Františkov farmstead from the north-west. National Archive.

020 Section of a map from the second military mapping (1835–1852) rendering the landscape between the Kladruby nad Labem and Františkov farmsteads and their immediate surroundings. Österreichisches Staatsarchiv.

021 Stable Cadastre map (*Franziszischer Kataster*) – copy of the Stable Cadastre indicative sketches of Kladruby Imperial Stud Farm from 1839. The map renders the landscape composition with the individual farmsteads. Regional branch of the State Archive, Zámorsk.

022 Section of the Stable Cadastre indicative sketch of the Kladruby Imperial Stud Farm from 1839. The section renders the situation of buildings in the Kladruby nad Labem farmstead and in the immediate neighbourhood. Regional branch of the State Archive, Zámrsk.

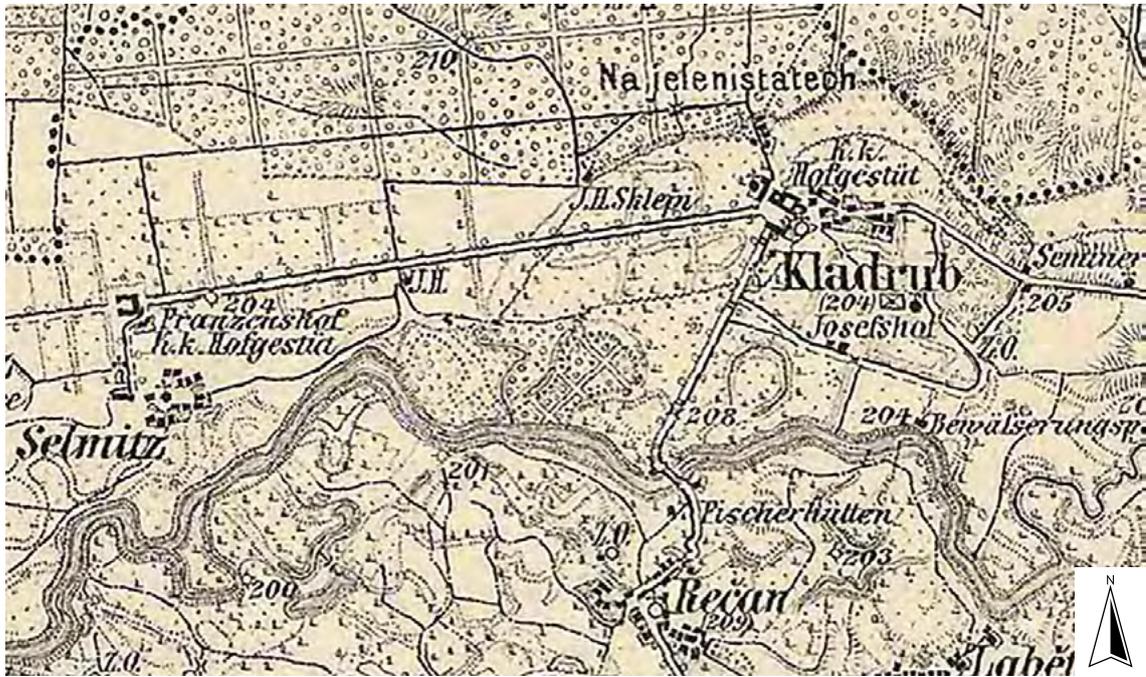

023 Section of the Stable Cadastre indicative sketch of Kladruby Imperial Stud Farm from 1839. The section depicts the situation of the Františkov farmstead buildings and immediate neighbourhood. Regional branch of the State Archive, Zámrsk.

024 Wenzl Herran's map of plots of the Kladruby, Františkov and Josefov farmsteads constituting the Imperial Court Stud Farm in Kladruby nad Labem from 1855. National Archive.

025 Map of plots, farmsteads and forests of the Court Stud Farm at Kladruby nad Labem from 1856. National Archive.

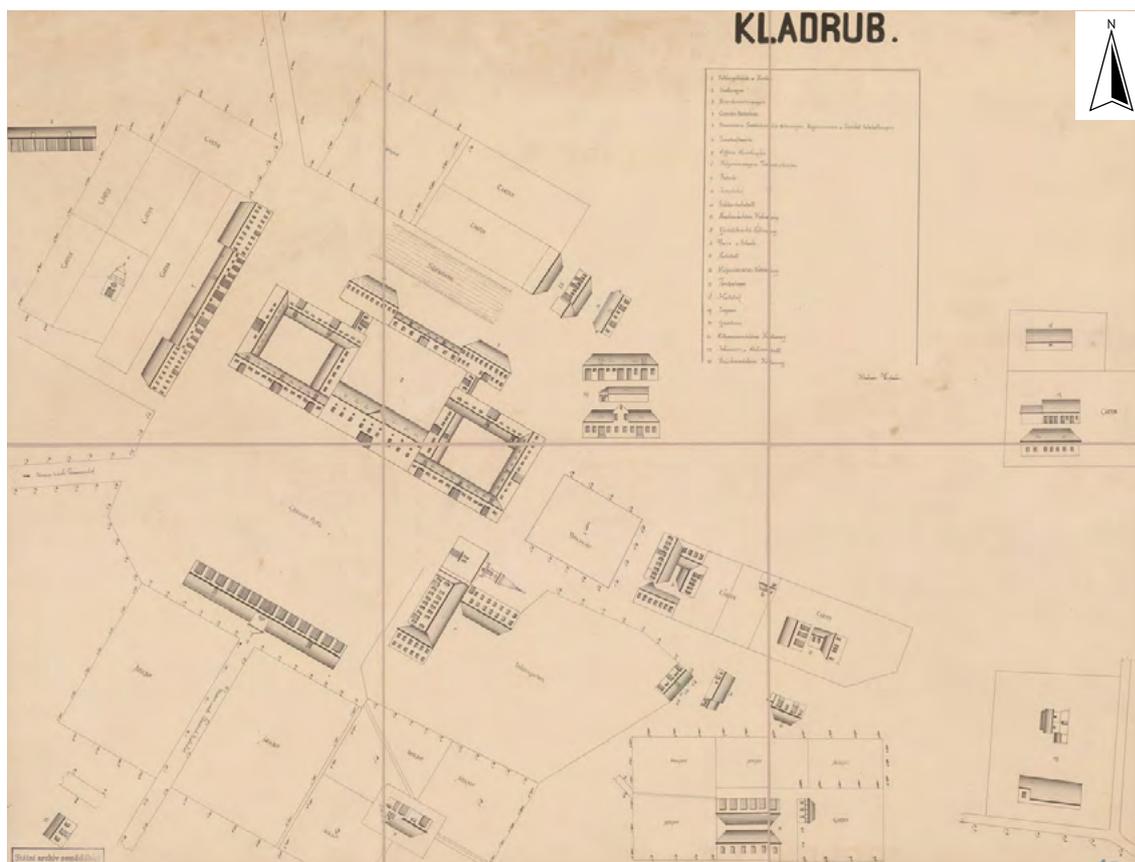

026 Section of a map from the third military mapping (1869–1885) rendering the landscape arrangement, all three farmsteads with stables (Kladruby nad Labem, Františkov and Josefov), including pheasantry located in today's Landscaped park of Mošnice in the southern section of the farmstead. Collection of Maps, Charles University, Faculty of Natural Sciences.

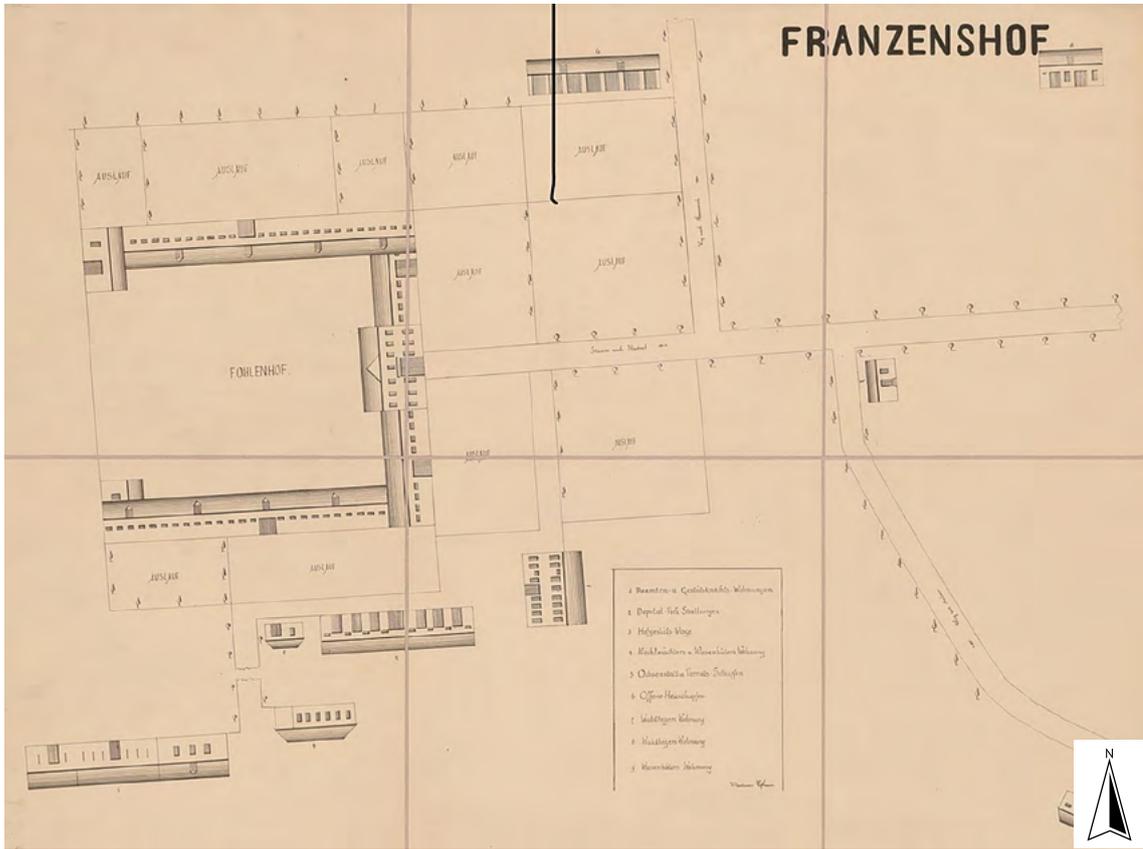

027 Plan of water management system (irrigation and drainage canals of Kladrubský náhon in the Stud Farm landscape) by Boleslav Trojan from 1876. National Archive.

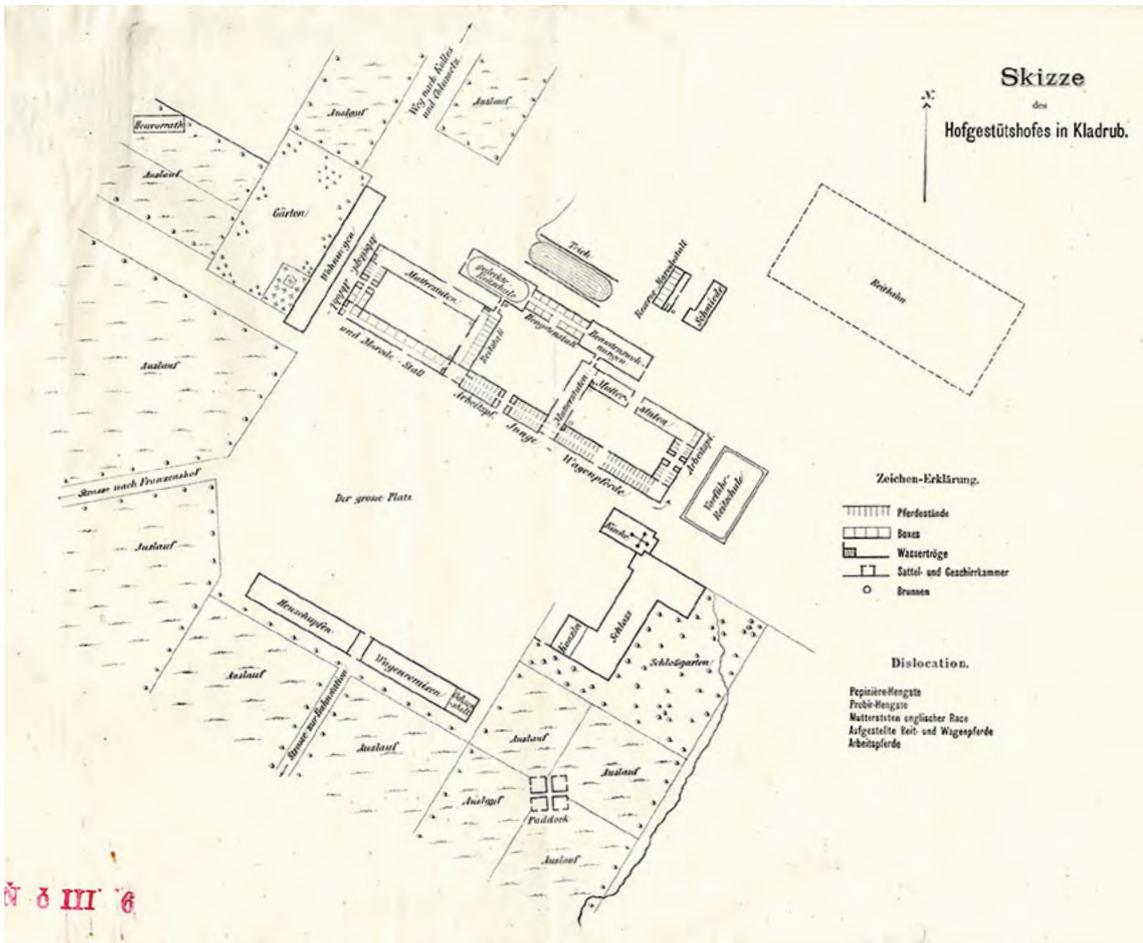

028 Plan of the irrigation system of the Kladruby nad Labem meadows and pastures by Boleslav Trojan from 1875. District branch of State Archive, Pardubice.

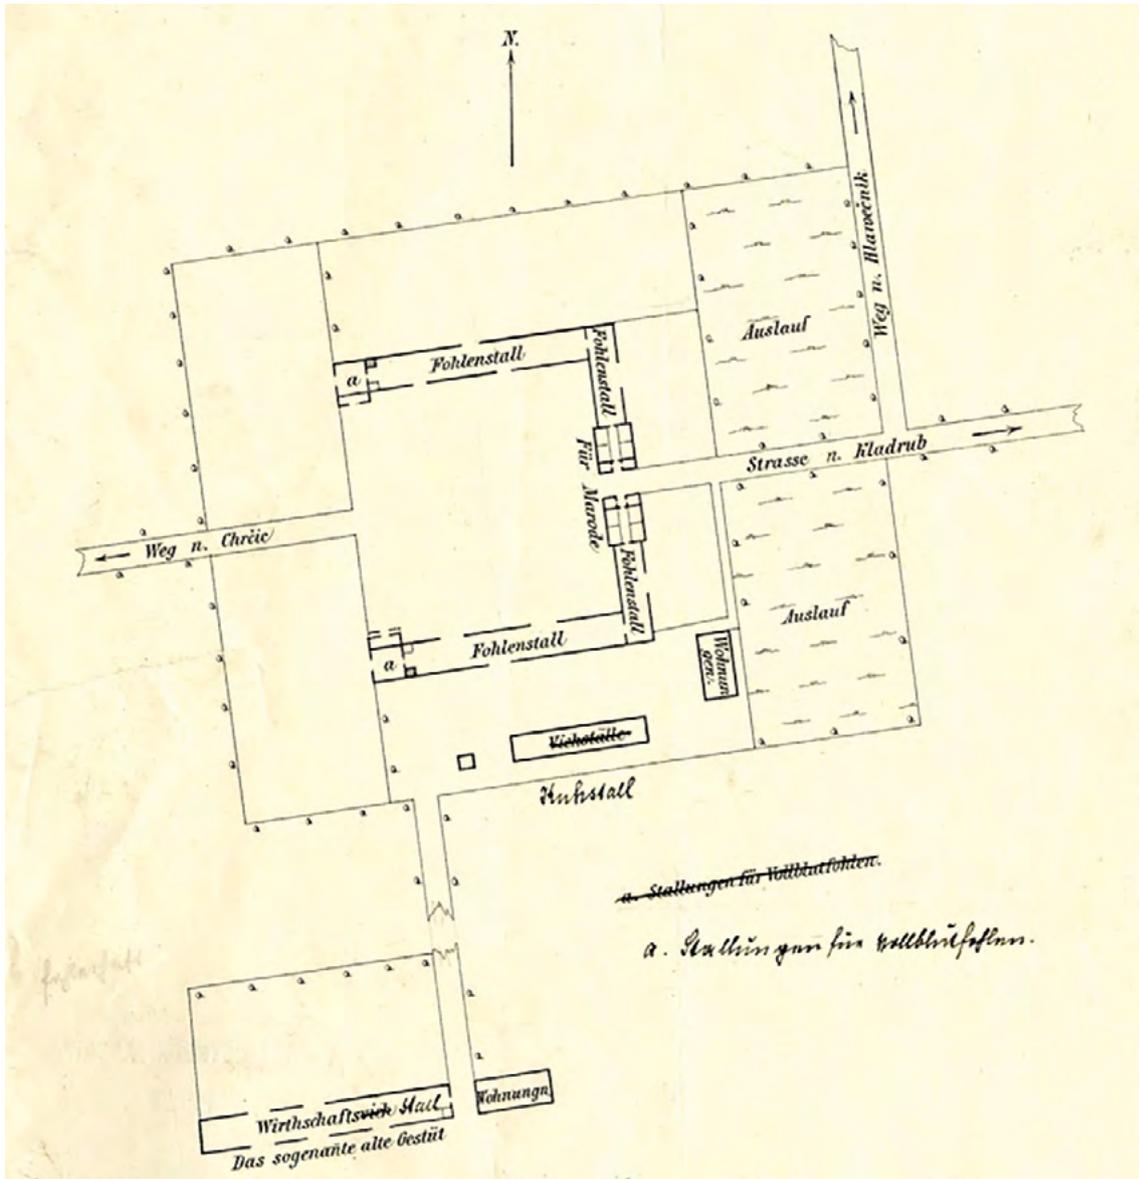

029 Site plan of the Kladruby nad Labem and Josefov farmsteads by Vladimír Hofbauer from approximately 1880. National Archive.

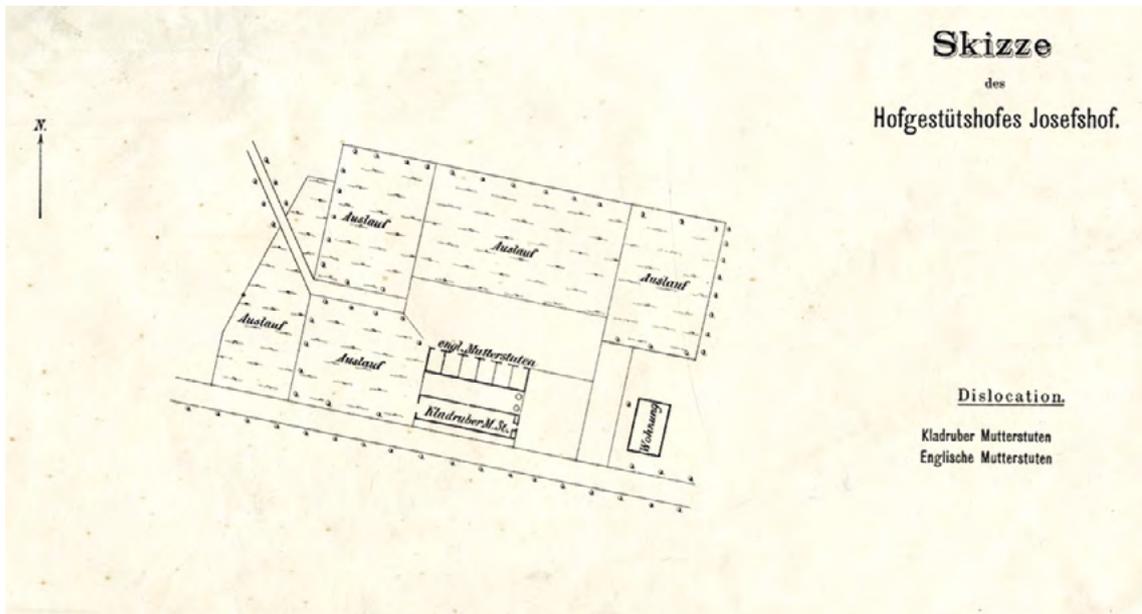

030 Site plan of the Františkov farmstead by Vladimír Hofbauer from approximately 1880. National Archive.

031 Site plan of Kladruby nad Labem farmstead from 1900. National Archive.

032 Site plan of Františkov farmstead from 1900. National Archive.

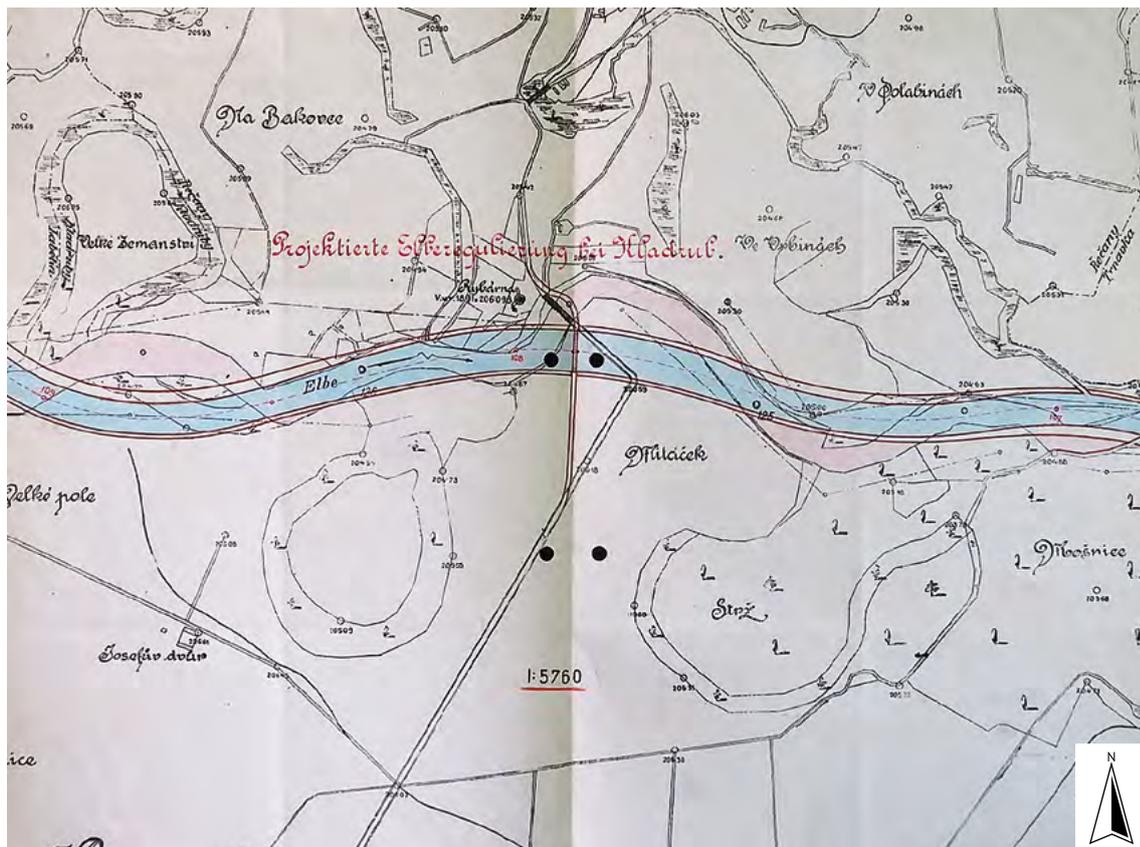

033 Site plan of Kladruby nad Labem farmstead from 1900. National Archive.

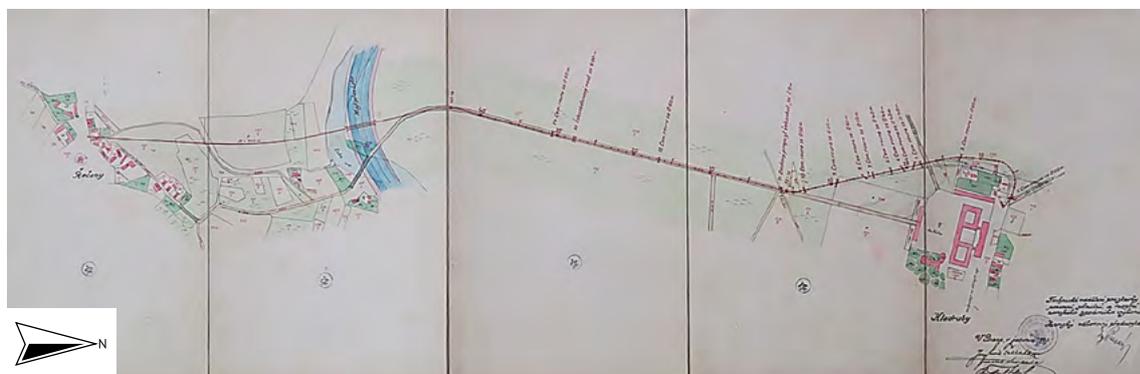

034 Design of landscape modifications from 1893 drafted by Vladimír Hofbauer, the brother of Frantz Hofbauer, the stud farm manager. The proposed “English garden look” of the landscape was adopted only in the form of clumps in the pastures. In the same period the work on the Mošnice Landscaped Park started under the supervision of Anton Umlauf, the Court Director from Hofburg and a member of the Royal Dendrological Society. Regional branch of the State Archive, Zámorsk.

4 Maps and plans from the 20th century

035 Project for canalisation of the Elbe south of Kladruby nad Labem from 1910. Regional branch of the State Archive, Zámorsk.

036 Project of the road to the new bridge across the Elbe bypassing Kladruby nad Labem farmstead from 1923. Regional branch of the State Archive, Zámorsk.
